

## The MUDI Hungary's Most Versatile Canine Companion

**ORIGIN:** Hungary, possibly as early as the 14<sup>th</sup> - 15<sup>th</sup> centuries

**CLASSIFICATION:** Herding Group (AKC FSS, UKC, FCI-Group 1)

**SIZE RANGE:** Males: 16-19 inches; Females: 15-18 inches

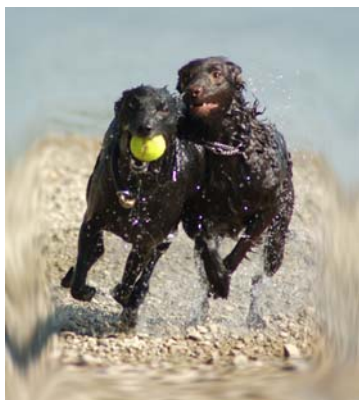

**COLORS:** All solid colors and merle pattern; individually classified as Black, White, Yellow, Gray, Brown, Graybrown, Black Merle, Brown Merle, Gray Merle and Graybrown Merle

**UTILIZATION:** Herding, Dog Sports Competitor, Service, Watchdog, Companion

**CHARACTERISTICS:** Versatile, Owner-Centered, Highly Intelligent, Adaptable, Courageous, Obedient, Sensitive, Faithful, Agile, Active and Alert, Minimal Grooming Required, Healthy, Long Life Expectancy

**SUITABILITY WITH CHILDREN/ANIMALS:** Very good with appropriately behaving children and animals, especially if raised with them

**SPECIAL NEEDS:** Not a breed for everyone; Can be protective, strongly reserved, shy and barky without intensive socialization in the first year and active, involved, caring owners; Is not a good "backyard" or "pack" kept breed; This is a soft breed that does not do well with harsh discipline or training – positive methods work best; Daily activity for mind and body is required

Please support quality Mudi breeding. Don't buy a Mudi puppy from internet agents or an intermediary. Buy directly from low volume Mudi kennels that breed only with parents that have official health checks, herding instinct and temperament tests and FCI or AKC FSS pedigrees.
